

# AWT-29-800A

**LY800A**

|                              |                         |
|------------------------------|-------------------------|
| Optical Class                | 1/1/1/2                 |
| Cartridge Size               | 133×114×10mm            |
| Viewing Area                 | 100×59.5mm(3.94"×2.34") |
| Light State                  | DIN3.5                  |
| Dark State                   | DIN5~9/9~13             |
| Shade Control                | Internal & Stepless     |
| Switching Time               | 1/10000S±20%            |
| Sensitivity Control          | Internal & Stepless     |
| Delay Time                   | 0.1S~0.8S               |
| Power Supply                 | Li-battery&Solar        |
| Rated Capacity Of Li-Battery | 1200mAh                 |
| Replaceable Battery          | Yes                     |
| Arc Sensor                   | 4                       |
| Low Amperage TIG Rated       | ≥5amps                  |
| UV/IR Protection             | DIN13                   |
| Self Test                    | Yes                     |
| Low Battery                  | Yes                     |
| Grinding                     | Yes                     |
| Cuting                       | Yes                     |
